

Taking Control of Your Cash Logistics.

The Virtual Vault Solution- Growing Your Business Through Borderless Banking

At Dunbar, our Cash Vault Services personnel possess the knowledge and experience, while utilizing state-of-the-art technology to perform cash management functions critical to the success of your business. Operating in a timely, efficient manner, we are able to provide your business with a cost effective, full service outsourcing solution, even beyond your existing footprint.

Utilize Dunbar *Virtual Banking*SM to increase your operational efficiencies and profitability while enhancing your cash management logistics. Our virtual vault solution allows financial institutions to expand their market reach and retailers to increase their back office productivity. Through our nationwide network of cash vault facilities we will provide consolidated cash and check processing, linking financial institutions and retailers of all sizes.

ARMORED TRANSPORTATION

We provide cash-in-transit service to commercial and financial institutions utilizing *D-Trak*[®], our remote handheld barcode scanning system for the tracking of your valuables in-transit.

DEPOSIT PROCESSING & VERIFICATION

Our virtual vault solution allows financial institutions to expand their market reach and retailers to increase back office productivity. Through our nationwide network we consolidate cash and check processing, linking financial institutions and retailers.

CASH MANAGER SAFES[®]

Utilizing our Integrated Cash Management Solution and partner banks, Dunbar can provide your business with advanced credit through daily electronic reporting from your in-store Cash Manager[®] Safe. We provide you with solutions to improve your cash handling and management, enhance your loss prevention controls, while increasing store security and efficiencies.

ATM CASH MANAGEMENT

Dunbar's ATM services provide financial institutions with a complete, closed-loop ATM cash management solution. Our comprehensive ATM solutions ensure that your ATM network remains efficient while allowing your customers continuous uninterrupted access to your ATM network and their funds.

DunbarValu-Trak®

Dunbar's comprehensive System for Tracking Valuables & Cash In-Transit provides your business with secure, 24/7 web access to daily activity reporting, as well as cash management and logistics monitoring between Dunbar and your business locations.

DunbarEZChange®

Our change order preparation and delivery service ensures your business has an adequate supply of coin and currency. Place orders 24/7 via our online ordering system for your bank branch and retail customer order fulfillment.

DunbarImage21®

Dunbar's remote check imaging solution allows you to take advantage of the Check 21 legislation. Through Dunbar Cash Vault Services Image21® remote deposit capture solution, Dunbar will provide you with consolidated check and cash processing.

DunbarVeri-Trak™

Web-based cash vault verification and data reporting system that provides you with deposit processing reporting, online change order placement, and account management. All web-based reporting is provided and accessible through our Dunbar Valu-Trak® secure web portal.
